

X-Twist™: Sistema de Anclaje de Suturas

El **X-Twist™** es un sistema de anclaje de suturas sin nudos, de arquitectura abierta y de rápida inserción, que ofrece múltiples configuraciones de suturas deslizantes y cintas de sutura.

Versatilidad en Procedimientos

El sistema X-Twist está diseñado para proporcionar versatilidad en los procedimientos:

- Aplicaciones en filas simples o dobles
- Uso en filas medial y/o lateral
- Construcciones tanto sin nudos como completamente anudadas

Esto permite reparar de manera reproducible y confiable el tejido blando a hueso.
